About Company

Rasaya TeleRad is a cutting-edge teleradiology service provider committed to delivering accurate, efficient, and high quality radiology reporting to imaging centers, hospitals, and diagnostic facilities. With a team of highly qualified radiologists, we ensure precision-driven interpretations backed by advanced imaging technology. Having successfully completed 1 lakh+ radiology reports and earning the trust of 10,000+ satisfied clients, we prioritize fast turn around times, AI-enhanced diagnostics, and seamless integration with healthcare facilities.

Our Mission

- To empower diagnostic centers with expert radiology support, regardless of their location.
- To ensure rapid, high-quality reporting through secure and integrated digital systems.
- To promote ethical, evidence-based radiology practice backed by continual peer review and quality control.
- To foster partnerships that prioritize patient outcomes and operational efficiency.

Our Vision

To be the most trusted and accessible teleradiology partner for healthcare providers globally, enabling better clinical outcomes through timely and precise diagnostics.

Why Choose Rasaya TeleRad?

- 24x7 reporting with rapid turnaround times
- Subspecialty interpretations across all modalities
- Secure cloud-based platform with seamless PACS integration
- India's top-tier radiologists and quality assurance protocols
- Transparent pricing and responsive client support
- Proven track record with diagnostic centers, hospitals, and chains
- Dedicated Client Support Manager

Founder's Note

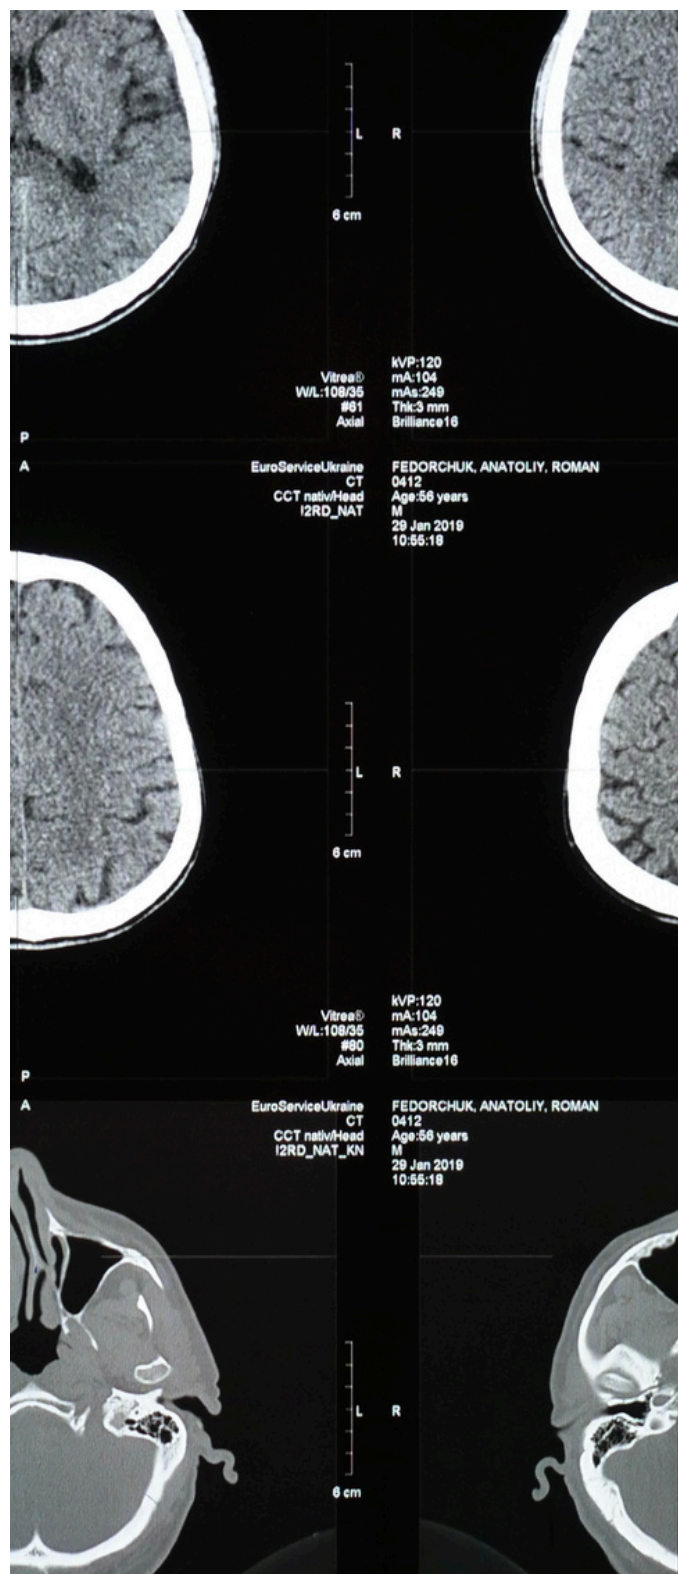

Dr. Ashwini Pandit

Founder and CEO

"At Rasaya TeleRad, we believe radiology is more than just reading scans — it's about empowering frontline healthcare providers with clarity, speed, and confidence. In an age where time-sensitive diagnostics can save lives, our mission is to make expert radiology accessible anytime, anywhere. Rasaya is built on a foundation of trust, quality, and care — and we're proud to support the diagnostic backbone of healthcare systems across regions. Thank you for allowing us to be part of your journey toward better outcomes."

Partner Testimonials

"Rasaya TeleRad has been a game-changer for our diagnostic center. Their commitment to turnaround times and error-free reports has boosted our credibility."

— Dr. P. Shah, Diagnostic Lab Owner, Gujarat

"The accuracy of their subspecialty reads and the professionalism of their team make them our preferred teleradiology partner."

— Hospital Administrator, Maharashtra

"This is the kind of reports we expect to deliver to our patients"

— Arihant Diagnostic Centre. Tikamgarh . M.P.

"Their subspecialty support, especially in neuro and musculoskeletal imaging, has significantly improved our clinical decision-making. We value the depth of expertise they bring."

— Dr. Richa , Diagnostic Centre Chhattisgarh

"Their QC system is rigorous, and we've seen significantly fewer interpretation issues since partnering with Rasaya."

— Radiologist, UAE

"We've seen a drastic improvement in our turnaround times since partnering with Rasaya. Their stat reporting has been a lifesaver during emergency cases."

— Dr. Maulik , Diagnostic Centre, Ahmedabad.

"We serve rural areas, and Rasaya's teleradiology model has helped us deliver urban-level radiology services to remote locations. Their onboarding team made it incredibly easy to integrate."

— Mr. Rajeev Thakkar, Operations Head, Unity Health Network, Maharashtra
